**Congressional Excursion.**  
 The Congressional Committee on the Defense of our North Eastern Frontier, with other members of Congress and invited guests, assembled at the Portland House at nine o'clock yesterday morning. They were joined by the editors and publishers of this State, who were present in the city, and then proceeded to the City Hall, where they were introduced to the Mayor and City Authorities, and such citizens as were present.

After an interchange of mutual good feelings for an hour, the committee, at the invitation of some of our citizens, retired to the city, taking particular observations of all the beautiful scenes and points that came under their notice.

**VISIT TO FORTS GORGE AND FORT FRENCH.**  
 At half past twelve o'clock, in company with the Mayor and City Council and a large number of citizens, they embarked on board the government steamer Tyro for the purpose of inspecting the harbor and fortifications. Maj. Thomas L. Casey, U. S. Engineer, and Capt. Luman, U. S. Army, had the guidance of the party.

They proceeded direct to Fort Gorge, where the whole party landed—after a landing can be effected on solid ground—and spent about an hour and a half in inspecting that strong and—designed to be—almost impregnable fortification.

Major Casey, who has charge of the works, ordered a Captain Smith in honor of Mr. Secretary Fessenden, who was in the city, but owing to circumstances he could not conveniently control, only "constructively" a member of the party. The ordnance used in firing the salute were the seven and eleven inch mounted guns, fifteen in all. Their reverberations waked up the echoes from all quarters, and might have suggested to the beholder hood another possible Alabama and Kearsarge affair.

Fort Gorge, which, completed, will mount ninety-five guns, of very heavy caliber. The fortification elicited the warmest commendations from gentlemen competent to pass judgment, and Major Casey was complimented on all hands for the thoroughness with which he is doing his work.

Re-embarking, the party proceeded to Fort Preble, by invitation of the accomplished commander of that post—Major Andrews—who met them at Gorham.

We noticed the following members of Congress:—Mr. Morrill, of Vt., Mr. Hale, of Pa., Mr. Perry, of N. H., Mr. Ames, of Mass., Mr. Patterson, of N. H., and Messrs. Rice and Perham, of this State. Besides these were Mr. Hildard, of the Coast Survey, Washington; Mr. Johnson, of Middletown, Ct., a distinguished Civil Engineer; Ex-Gov. Goodwin, of N. H.; Hon. Horatio King, of Washington, President Woods, of Hingham; Col. Lege, Rev. Mr. Ballard, of Brunswick; Rev. Mr. Haskell, of Boston; Hon. Noah Woods, of Bangor, the Collector of the Port, the Mayor of the city, members of the City Government, and many other invited guests, citizens of Portland and others, with representatives of the Herald and Tribune of New York City and several papers of this State.

Arrived at Fort Preble, the party partook of a beautiful collation, which was prepared with a relish known only to those who have whetted their appetites by full inspirations of fresh air, such as fans the face of old ocean. After a full inspection of the fort and a pleasant season spent in listening to the soul-stirring strains of the Band of the 17th Infantry, which played some of the choicest national airs, the party was allowed the rare pleasure of witnessing a species of target practice with the 100-pound Parrotts, at a range of one mile and a sixteenth. This was perfectly satisfactory, and calculated to impress all with the fact that a Parrott shell or solid shot of that size would be no comfortable visitor to be received unannounced on board an enemy's vessel attempting to enter the harbor.

There are several 15-inch guns mounted on berkelets at Fort Preble, the weight of which is about twenty-five tons each. They are solid shot, lying stacked up, looked quite tempting, but we apprehend none of them were secreted in the pockets of the company, and thus fled from Uncle Sam. They weigh about 500 pounds each.

After seeing the guard inspected, reviewed and mounted, the party again embarked, and sailed back to the city, arriving about six o'clock, all apparently well with the excursion, and delighted with the panoramic view afforded by our harbor and islands in their August attire. The party was under no small obligations to Col. L. B. Smith for his unremitting efforts to contribute to their enjoyment and to make everything pass off successfully.

**LEVEE.**  
 The Levee given by the Merchants and others of the city, at the new City Hall last evening, was, in many particulars, one of the most brilliant affairs of the season. The attendance of naval and military officers in uniform was much larger than usual, which, with the array of grace and beauty, and the appearance of splendor and brilliancy of the most pleasing character. The distinguished visitors from other States, as well as those of our own State, entered into the spirit of the occasion, and either kept time to the music of Poppenburg's Band or looked on with evident satisfaction. Refreshments were provided on the most liberal scale, all having an opportunity to partake as freely as their capacity would admit of. The Editorial Representatives were in clover; with lemonade, ice cream, cake, &c., &c., for the stomach, with eyes feasting on the beauty and fashion of Portland, they were tempted to indulge more freely and to a later hour than usual, prudent men are expected to do. Nothing was wanting on the part of the committee who had the matter in charge to render the evening as pleasant and remembered with pleasure by visitors of our own and from other States.

**S. OF T. EXCURSION.**—Portland Excursion No. 95 of S. T. will make an excursion to Saco River on Tuesday, over the York and Cumberland Railroad. Chandler's Quadrille Band, with Chandler himself to lead off, will furnish the music for the occasion. No effort will be spared to make this one of the most entertaining excursions of the season. See advertisement.

**EXCURSION TO THE ISLANDS.**—The annual excursion of the Spiritual Association and friends, to the islands, takes place to-day. The programme is an attractive one, and we have no doubt it will be carried out to the letter. They leave G. H. Wharf at 8 1/2 o'clock, returning at 12 1/2 o'clock.

**THE FOUNTAIN OF MINERAL WATERS.**—This is found pure and full of the waters of Middle street. Their Vichy and Kissing waters are excellent and health giving, in this warm weather, and their soda fountain is always sparkling.

**SALE OF A VESSEL.**—The bark Minnetonka, launched a short time since at Capt. Elizabeth, about 430 tons burthen—built by Mr. Pickett for Capt. Fitts and others—was sold on Tuesday, for parties in Boston, for \$43,000, cash.

**FOR THE FRONT.**—About one hundred veterans from Camp Barry left in the steamer for Boston, last evening.

The Portland Markets, which were quiet yesterday, will be found on the fourth page this morning.
